

Hello, residents of Hashmonaiim

In the upcoming elections, with G-d's help, in order to improve the issues that have been on our agenda for long time, I am running for the position of the representative of Hashmonaim in the Council of Binyamin,

Vote **חש** so that we can address these issues:

- 1. Housing for young couples.**
- 2. Caring for elderly residents**
- 3. Establishment of an administration for the residents of West Binyamin**
- 4. Increased budgets from the Council of Binyamin.**

1. Housing for young couples

It is important for us that **young couples** from within and outside the community will come to live in Hashmonaim. This will contribute to the rejuvenation of the Yishuv and will ensure the continued existence of the kindergartens, the school and the yeshiva.

To this end, we should encourage:

Construction of 3-room apartments suitable for young couples.

Tax reduction and relief to encourage residents who rent units to young couples.

2. Caring for elderly residents

Our community has existed for more than 30 years and the elderly population constitutes a large part of it. It's necessary to expand the Council's budget, for Golden Age residents. Establishing and expanding suitable clubs, and creating an infrastructure for many activities, such as appropriate study and training programs, and finding jobs for those interested.

3. Establishment of an administration for the residents of West Binyamin

As is well known, Hashmonaim is located in western Binyamin with a number of nearby settlements. It is inconceivable that for the council's service the Hashmoneans would be required to travel to the distant Psagot.

An administration should be established in the area that will provide services to nearby residents.

4. Increasing budgets from the Hashmonaim Council

Since the establishment of the settlement, Hashmonaim was a sort of stepchild in Mte Binyamin. Although the taxes we paid were welcomed by the Council. But when we needed budgets, there were always other settlements that preceded us. It is time to change this attitude.

Hashmoneans deserve a budget like a large settlement in the council that pays taxes. And it is appropriate that these funds be returned to us as suitable kashrut and not be transferred to other communities.

For all these and more
Vote for – למען חשמונאים

Yours
Yirmi Taub
